### Biography

My name is Anna Muller. I am a Russian photographer and collage artist based in Paris, France. I was born and raised in Izhevsk, Russia. I graduated from the International Academy of Photographic Arts (Moscow) and received a European Master of Photography degree at the Spéos Paris Photographic Institute. I also spent five years living and working in Tokyo, Japan. The rich traditions of Japanese culture played a major part in the development of my self-discipline, attention to detail and responsiveness. My greatest inspiration is color. I see, hear and feel everything through color. It is my poetry, my music, and my passion. As an artist, I look for different ways to express my ideas. I discovered that collage art and photography allow me to step beyond the actual form in visualizing my sense of humor and self-irony.
