## Profile

Alix Doussot - Product and Space Designer Based in Milan

I am a dedicated designer with a strong passion for exploring the interactions between people, space, and objects. My approach centers on creating projects that not only align with their social and cultural contexts but also reflect a meticulous attention to detail.

With a degree in Interior Architecture from France (2017) and a degree in Industrial Design from ECAL in Switzerland (2020), I bring a diverse skill set to my work. I honed my design expertise over four impactful years at Keiji Takeuchi Design Office before embarking on my journey as an independent designer. I am committed to delivering innovative and thoughtful solutions that elevate both functionality and aesthetic appeal.

## Work Experience

### Design Teacher (workshop)

Association Manifact (Saint-Laurent du Maroni, Guyane Française) 2024

- Supervision of a group of interns in a training program to foster creativity and independence in their professional projects
- Explored themes of sustainability, creative responsibility, and the importance of care within social and cultural contexts.
- Teaching exercises related to digital tools used in design.
- Completed a final sewing project that included:
  - Development of digital technical drawings
  - 3D modelling for pocket closures
  - Use of a digital embroidery machine
  - Sharing progress on social media platforms

### Industrial Designer Assistant

Keiji Takeuchi Design Office (Milan, Italy) 2020-2024

- Assisting on all the stage of several projects from the brief study, initial conceptual sketches, hand models, 3D study, technical drawings, regular clients presentations, to following up prototyping development until production. (Regular visits to factories and clients worldwide)
- Project management on a collaboration with Topologie Brand to redesign shops and provide them with updated display and storage system. I have been travelling autonomously to Asia to visit new shops and help Topologie team to design the interior and provide accurate solutions for their needs.
- Following several typologies of projects at the same time: lighting, furniture, tools, accessories, households, branding, consulting.
- Following project development and direct communication clients of several companies such as: Faust (Germany), Nine (UK), Topologie (Asia/Europe), Geiger (US), De Padova (Italy), Alessi (Italy)...
