Personal skills :

Thanks to my way and my artistic experiences, I could develop a strong passion for the illustration world, to which I dedicate a lot of my free time. I'm dancing since I was a little child, and this helped me to develop a strong strictness and respect of the rules and the norms of a group; furthermore it helped me to enter inside the musical world, for which I had some collaborations sometimes.

Thanks to the experiences abroad, I learned to put myself in a new and different context, and I could explore and appreciate the different cultures, moreover I learned to move independently and efficaciously in a new setting.

With Vitelli, I'm having the responsibility to take care of all the fabric in knitwear, the merch- collection in knitwear, taking care of all the development of all the knitwear part of the production, and after processing all the orders from the campaign, I'm taking care of all the production from the buying of yarns , to the development with the suppliers, to the delivery to the clients.
