

# ABOUT US

We aren't talking about clothes, we are talking about feelings. Every piece has a story, welcome to discover it.

The Artelier was born in 2020 from the fusion of Art and Atelier, two fundamental pillars of the brand. Alba Ayza, founder of the brand, decided to create The Artelier under the premise of innovation and the constant search to express feelings through prints.

One of the big problems of the fashion industry is textile pollution and the export of production, which is why The Artelier is committed to producing at km 0 with recycled and/or organic fabrics.

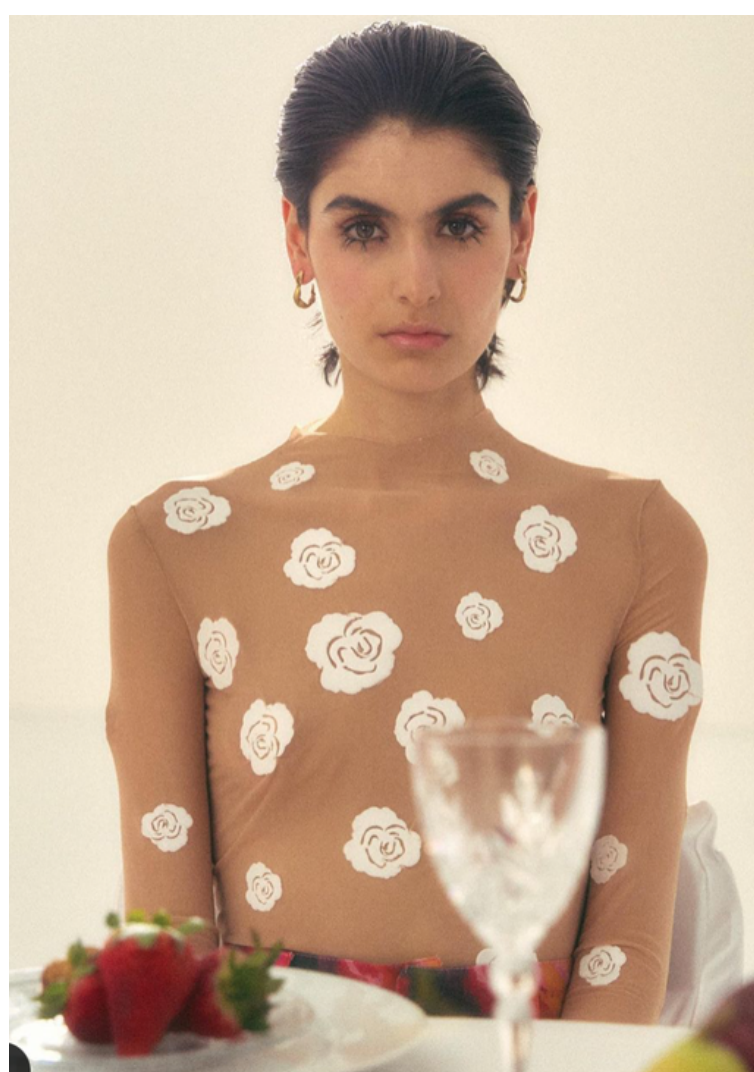

We are members of the "Barcelona + sostenible" network and are fully committed to sustainability.

## 3D prints

In all our collections we create a 3D print, printed on a home printer and place it on a garment or a fully functional look.

We want fashion and our brand to reach every home, by downloading this 3D print you can print it on any garment and create your own 100% personalised The Artelier look.

# Avant

Avant is the first collection presented at 080 Barcelona fashion week.

"IT'S AN ODE TO FAMILY, TWO YEARS AGO MY FRENCH GRANDMOTHER PASSED AWAY AND BECAUSE OF COVID I COULDN'T GO TO SEE HER AND BY THE TIME I GOT THERE IT WAS TOO LATE. I WAS NEVER ABLE TO SAY GOODBYE AND THAT'S WHY I CREATED AVANT, MY WAY OF SAYING GOODBYE TO HER".

Winners of the rec.0 Barcelona fashion 2022 competition

Selected twice for the ALLIANZ EGO CONFIDENCE IN FASHION Award

WE ARE A SUSTAINABLE AND FAMILY PROJECT WITH A CLEAR OBJECTIVE: TO DRESS FEELINGS BY CREATING SOPHISTICATED AND LIMITED EDITION PIECES IN BARCELONA.
